INTRODUCTION

Motivated final-year Computer Science student specializing in IoT, Cyber Security, and Blockchain, with hands-on expertise in Generative AI and full-stack development. Demonstrated ability to architect decentralized applications, integrate LLM-powered systems, and deliver production-quality solutions in fast-paced hackathon environments. Passionate about building secure, scalable systems where emerging technologies intersect with real-world impact.

PROJECTS

1) E-Voting System Using Blockchain

Blockchain — Ethereum — Solidity — React.js

- Architected a tamper-proof decentralized voting platform recording each vote as an immutable on-chain transaction, eliminating manipulation and unauthorized alterations.
- Implemented digital voter authentication with anonymity preservation and transparent real-time auditability, removing the need for any central authority.

Tech Stack: Solidity, Ethereum, React.js, Web3.js, MetaMask

2) Arogyavaani – Voice AI for Rural Healthcare

AI — NLP — LLM Integration — Twilio

- Built an end-to-end conversational AI platform enabling phone-based healthcare assistance via Twilio voice webhooks and LLM-driven dialogue systems.
- Implemented multilingual support to enhance accessibility for non-English rural users, significantly broadening healthcare reach across underserved communities.

Tech Stack: Python, Twilio, LLM APIs, NLP, FastAPI

3) Pharmacy Management System

Automation — Python — Database Management

- Designed a system to streamline prescription handling, billing workflows, and inventory management; automated stock monitoring with expiry alerts.
- Developed customer data management features improving operational accuracy and significantly reducing manual errors in daily pharmacy operations.

Tech Stack: Python, SQLite, Tkinter, Pandas

EDUCATION

B-Tech– Computer Science Engineering (IoT, Cyber Security & Blockchain)

2021 – 2025

Annasaheb Dange College of Engineering and Technology, Ashta | CGPA: 8.0 / 10.0

HSC (XII) – Science

2023

Ligade Patil Jr College of Science | Percentage: 69.82%

SSC (X)

2021

Yashwantrao Chavan Vidyalyay Yashwanagar | Percentage: 82.60

CERTIFICATIONS

- The Economics Times GenAI Hackathon** — Finalist 2026
- IBM RAG and Agentic AI Professional Certificate** — Coursera 2026
- National Level Hackathon Participant – OpenAI X NXT Wave Buildathon** 2025

TECHNICAL SKILLS

Languages: Python, JavaScript, Solidity, SQL, C, C++

Blockchain: Ethereum, Web3.js, Smart Contracts, DApps, Hardhat, MetaMask

AI / ML: Generative AI, LLM Integration, NLP, LangChain, HuggingFace

Web Development: React.js, Node.js, FastAPI, Flask, SupaBase

Tools: Git, VS Code, Postman, Remix IDE

AREAS OF INTEREST

Blockchain & Decentralized Applications • Smart Contract Development • Generative AI & LLMs • AI/ML Research • Cyber Security • Open Source Contributions • Hackathons
